

Dear Friend,

Someone you know has Neurofibromatosis!

I am supporting NF, Inc. Midwest by getting involved in the Great Steps for NF walk because someone I know has Neurofibromatosis (NF). While you may not have heard of NF, it affects more people than Muscular Dystrophy, Tay-Sachs and Huntington's Disease combined and is estimated to occur in 1 of 2,500 births. Neurofibromatosis can be a devastating disorder and I guarantee someone you know is affected by it!

We need research and we need better medical care!

It's difficult, especially in these economic times, to keep up both the promise of research and the comfort of good care, but these are two initiatives that NF Midwest is committed to and hopes to never waiver from. Research promises to benefit those with NF and a 100 million Americans with cancer and learning disabilities. In the meantime, there are NF patients receiving inadequate care through health care providers that do not have enough knowledge of the various complications of NF.

I hope we never to have to choose between CARE or a CURE. If we did, what should we choose? What would you choose? Please help us continue the mission by donating whatever you can spare to make a difference.

The difference between CARE or CURE is "U"!

Please help NF, Inc. Midwest by sponsoring the annual "Great Steps for NF" walk 2012 now in five locations, Naperville, Illinois; Effingham, Illinois; DeForest (Madison), Wisconsin; Fort Wayne, IN and Malden, MO. This fight for care or a cure cannot be won alone. You can be the hero we need to make the difference. There are many opportunities and levels to sponsor. See the attached sponsorship sheet.

Thank you for your CARE in our hope for a CURE!

Sincerely,

Great Steps participant

11th Annual Walk
Naperville, IL
Sat. June 2, 2012

3rd Annual Walk
Madison, WI
Sat. May 19, 2012

5th Annual Walk
