10:50-11:05	Break
11:05-11:50	Genetic Testing: Taking a Proactive Step Jordyn Prell, MS, CGC

Thank you so much for being here today!

We encourage everyone to listen to each presentation. Even if a topic doesn't feel directly relevant now, it might be in the future, and it's a great way to stay informed and become a stronger advocate for NF. That said, we understand that sometimes you need a moment to recharge. Please feel free to step out, relax, or chat with others in the lobby—we also encourage you to meet new people and connect! Our presenters are happy to meet with you there if you have more questions or would prefer a more private conversation.

Just a small favor—we kindly ask that you move away from the auditorium doors so your conversation doesn't sneak back inside.

Thanks again for joining us today!

LUNCH STARTS IN ATRIUM	
12:00-1:00	Kids will have pizza in room 250. You may have them join you or they can remain in 250. Please, do not have pizza as we ordered only enough for the kids.
1:00	Prize Drawing
1:00-1:45	Scans in NF: The Great MRI Debates Robert Listernick, MD
1:45	We will now split out into separate topic groups NF1 will remain in the Auditorium NF2-SWN and Schwannomatosis will go to room #105

Continues on Back...
